Please observe! This is a Fabric section, the graphic will be done in fabric material with PVC edge band. For graphic product in see "Fabric instruction no. 2"

**1** Build your frame

**2** Mount the 4 connectors at the outside in each corner.  
Tip! if you mount the front connector 30 cm in on the frame you will have a small roof over your front module.

**3** Mount the frame to the backwall and front module.  
Attach the connector at the top hubs in all four corners.
